

DIALOG 3G-DS Interpreter Register

Upgrade our competition's meter in a matter of moments with the AMR DIALOG INTERPRETER.

Master Meter has invented a revolutionary AMR meter register that lets you upgrade many brands of water meters. So if the meter you have is still perfectly good, upgrade to Wireless RF by just replacing the register with the DIALOG INTERPRETER. The structure of the INTERPRETER enables it to be programmed to any competitor's gear ratio. Compatible brands include: Sensus, Neptune, Badger, AMCO, and Hersey.

Analog and Digital Registers

Adapter rings exist for competitive meters with tamper proof connection. Register and bonnet connect to the adapter ring. The DIALOG INTERPRETER combines with the new Master Meter Positive Displacement meter and MultiJet family of DIALOG products, offering a dynamic new DIALOG 3G-DS Wireless RF Drive-By System.

BENEFITS & FEATURES

- Direct replacement of existing competitive registers with DIALOG 3G Technology
- Second-generation Wireless RF Solution
- Data Logging supports 4,000 individual readings with programmable read intervals
- Leak, tamper and backflow detection
- Easy installation, self-activated
