

© MASTER METER 2007 U.S. PATENT NOS. 7,135,986; 6,819,292; 6,954,178; AND OTHERS PENDING.

INTRODUCING THE UNIVERSAL VOICE OF REASON.

Master Meter's DIALOG 3G® Interpreter Register unites your existing meters and gives them a voice to be reckoned with — our powerful and proven 3G ConnectionFree™ RF AMR technology.

We've got old brass talking and keeping your utility informed with rich 4,000 point data logging and vigilant revenue alerts monitoring for leaks, theft, and stuck meters.

Our simple universal upgrade replaces the existing register on virtually any meter, regardless of brand, in minutes — without service interruption. So, let's forget about the past and start bringing your existing infrastructure into the future.

Reading the Future™
