Moving at the Speed of Technology

Master Meter is intent on driving new and innovative ways to manage the vast amount of data flooding into Smart Cities and Utilities. We're a high-service solutions provider specializing in advanced metering, data delivery, and Utility Intelligence Software and our portfolio of new and innovative technology continues to grow in support of a

dynamic and rapidly changing global water market. Mindful of a tight and very finite water supply, Master Meter is here to support your conservation efforts, ensuring ample supply for generations to come. Join us.
